

A Manchester Proverb

I've indulged myself somewhat in the title for this prayer but then we do have to put up with a lot of rain and damp in Manchester and it is a fantastic place to live! This was written for a series we did on the book of Proverbs. How about writing one of your own?

You can't stop the rain from falling down
but you can wear coats and boots and a great big smile

You can't stop the cold wind blowing all around
but you can wrap up warm in jumpers and great big hugs

You can't stop buildings from crumbling and getting damp
but you can build a future in friendships and communities

You can't stop the darkness closing in on the world
but you can bring hope in lighting candles and dreaming dreams

You can't stop sometimes feeling down and sad
but you can gather together to sing and play with God.
